

SECTION THREE:

HSE Supports

Home Support Services

HSE offer Home Support Services for older people (subject to availability and funding) aimed at supporting older people remain in their own homes for as long as possible and to support their informal (family) carers. These supports are free of charge and do not require the person to have a medical card. They are primarily aimed at over 65's with some exceptions for under 65's. This support includes help with:

- Getting in and out of bed
- Dressing/undressing
- Personal care
- Intensive support packages of care

Health Centres

Health Centres provide a wide range of primary care and community services in towns and villages throughout the country.

The services that you can access from your Health Centres include:

GP services, Medical Cards and GP Visit Cards, Public Health Nurses, Social Work and Child Protection Services, Child Health Services, Community Audiology Service, Disability Services, Older People Services, Chiropody, Ophthalmic, Speech Therapy, Addiction Counselling and Treatment, Physiotherapy, Occupational Therapy, Psychiatric Services, Home Help and more.

Primary Care: Health and Social Care Services

Primary Care is all of the health or social care services that you can find in your community, outside of hospital. It includes GPs, Public Health Nurses and a range of other services. They provide a single point of contact to the health system.

Nursing Home Support Scheme (Fair Deal)

The Nursing Homes Support Scheme, also known as the "Fair Deal", provides financial support to people who need long-term nursing home care. The scheme is operated by the Health Service Executive (HSE).

Under this scheme, you make a contribution towards the cost of your care and the HSE pays the balance. The scheme covers approved private nursing homes, voluntary nursing homes and public nursing homes. You can get a list of approved nursing homes from the HSE – see [Where to Apply](#).

Anyone who is ordinarily resident in the State and needs long-term nursing home care can **apply for the scheme**.

When you apply, your care needs are assessed to confirm that long-term nursing home care is the most appropriate option for you.

Your financial situation is also assessed to see how much you will have to contribute towards your nursing home fees. If your contribution is less than the amount of the fees, the HSE will pay the rest. It is 80% of weekly income, plus 7.5% annually from savings and investments and 7.5% from all property including the primary residence for a maximum of three years.

Assets, such as savings and property, are taken into account when assessing your financial situation. You can apply for the Nursing Home Loan if you want to defer the part of your contribution that is based on your home or other property.

What does Fair Deal cover?

The scheme covers long-term nursing home care only. It does not cover short-term care such as respite, convalescent care or day care although these types of services may be provided in some nursing homes.

Services covered include: bed and board; nursing and personal care appropriate to the level of care needs of the person; laundry service; and basic aids and appliances necessary to assist a person with the activities of daily living.

Other goods and services may be available under schemes such as the Medical Card or Drugs Payment Scheme.

There is a set level of funding for the scheme each year, so there may be situations where a person's name must go onto a waiting list until funding becomes available. If this is the case, the HSE will let you know when it writes to advise you whether you are eligible for State support.

Moving from hospital care to long-term care

If you are in hospital but no longer need acute care, then you can be charged for long-term care in that hospital. If, for example, you are waiting to move to long-term care, then you should apply for Fair Deal as soon as you can.

Medical Card

If you have a Medical Card, you don't have to pay to see your doctor or for medicines they prescribe.

A Medical Card also covers:

- public out-patient and in-patient services
- eye and ear tests
- dental checks.

Check if you can apply

Anyone who is 'ordinarily resident' in the Republic of Ireland can apply for a Medical Card or GP Visit Card. This includes families, single people, even those working full or part-time. 'Ordinarily resident' means that you are living here and intend to live here for at least one year.

Check if you might be eligible

Being eligible for a Medical Card depends on your circumstances. If you do not automatically qualify for a Medical Card, the HSE will carry out an assessment.

You will need to provide information about your:

- income
- expenses
- marital status
- dependants.

If you're not eligible for a Medical Card, the HSE will then automatically assess you for a GP Visit Card.

People who automatically qualify

You may automatically qualify for a Medical Card if you:

- are participating in certain government schemes
- have been affected by the drug Thalidomide
- have had a surgical Symphysiotomy
- are a child diagnosed with cancer within the last five years
- are in foster care
- live in direct provision
- qualify under EU Regulations.

For any of these, you will not be subject to a financial assessment but you will still need to apply.

Prescription charges for Medical Card holders

If you have a **Medical Card**, there is a charge for **prescribed medicines** and other items that you get on prescription from pharmacies. Refunds are available every 6 months to those who have paid over the monthly limit.

The prescription charges for people over 70 is €1.00 per item that is dispensed to you under the Medical Card scheme, up to a maximum of €10 per month per person or family.

For people aged under 70, the prescription charge is €1.50 per item, up to a maximum of €15 per month per person or family.

GP Visit Cards

If you are not eligible for a **Medical Card**, you may be eligible for a **GP Visit Card**. A GP Visit Card allows you to visit a participating family doctor (GP) for free.

The GP Visit Card does not cover hospital charges. Prescribed drugs are not free but may be covered by the Drugs Payment Scheme. The GP Visit Card does cover visits to GP out of hours services. Blood tests to diagnose or monitor a condition are covered.

In order to qualify for a GP Visit Card, you must meet the eligibility rules below and be ordinarily resident in Ireland. That is, you must have been or intend to be living in Ireland for at least one year.

ELIGIBILITY CRITERIA:

- ✓ All children under the age of six can get a GP Visit Card.
- ✓ The GP Visit Card is available to everyone aged over 70 without an income test.
- ✓ If you are aged under 70, eligibility for the GP Visit Card is means-tested. That is, your income is assessed by the HSE as part of the application

Income limits for people aged under 70

The rules for assessing the amount of your income are the same as for the Medical Card means-test for people aged under 70 but the income limits for the GP Visit Card are higher than the limits for the Medical Card.

Dependents of people aged over 70

If you are aged over 70 and you have dependants, for example a spouse, civil partner or cohabiting partner aged under 70, your dependants may qualify for a GP Visit Card if your income is below a certain level.

The rules for assessing the amount of your income are the same as for the Medical Card means-test for people aged under 70 but the income limits for the GP Visit Card are higher than the limits for the Medical Card.

If you have a spouse, civil partner or cohabiting partner, the limit for your combined income is €1,400 per week, not including the first €72,000 of savings or similar investments.

If you do not have a spouse, civil partner or cohabiting partner, the income limit is €700 per week, not including the first €36,000 of savings or similar investments.

Income over the limit

When you apply for a GP Visit Card, you will first be assessed for eligibility for a Medical Card. If your income is over the relevant limit, the deciding officer will consider whether it would cause you undue hardship if you are refused a Medical Card.

If you don't qualify for a Medical Card, you are then assessed for a GP Visit Card. If your income is over the relevant limit, the Deciding Officer will consider whether it would be 'unduly burdensome' for you to pay for GP services if you don't have a GP Visit Card.

APPLICATION PROCESS:

Aged under 70

If you are aged under 70, you use the same application process to apply for a GP Visit Card as for a Medical Card. As part of the application process for the GP Visit Card, your entitlement for a Medical Card will also be assessed.
